

## PRESS RELEASE

### Software Tech Enterprises Receives Department of Homeland Security (DHS) U.S. Customs and Border Protection (CBP) Small Business Achievement Award

*Matteson, Illinois - May 5, 2015* - For its outstanding work in support of the DHS mission, Software Tech Enterprises (STE) has been awarded the 2015 DHS Small Business Achievement Award by the Department of Homeland Security U.S. Customs and Border Protection.

In particular, STE was recognized for work performed for the FISMA and NIST standards and system

update/maintenance in Fiscal Year 2014. STE received its award during the 11th Annual DHS Small Business Ceremony, held on April 16, 2015.

Headquartered in Matteson, Illinois, STE offers enterprise solutions and technical services that are as cost-efficient as they are technologically sound. STE provides experienced Management Consulting professionals who possess a wide range of knowledge in Program Management, Project Management, Enterprise Architecture, Enterprise Data Management, Portfolio Management, Information Architecture, Business Process Management, Business Process Re-engineering, Service Oriented Architecture, System and Data Integration, Performance Measurement, Data Warehousing, and other Enterprise support services.

STE remains firm on its goal to monitor threats to fight against the war on terror, assist with the aging population, deliver innovative information technology strategy and solutions, and provide Business Solutions, Not Ideas.
